## The 3<sup>rd</sup> Annual One Mind at Work Global Forum: Transforming Workplace Mental Health **SEPTEMBER 11 - 12, 2019**

One Mind and the Kennedy Forum came together in 2016 to form One Mind at Work, focused on the development and implementation of a gold standard for workplace mental health and well-being.

For the past two years, a committed group of innovative executives from world-leading companies have convened at our international forum to discuss the executive approach to transforming how mental health is viewed and supported in the workplace, how healthcare is purchased under the new paradigm, and how we can gain equity, collaboration and parity between physical and mental health.

The Forum will span one and a half days, September 11-12, 2019. Speakers and attendees are also invited to dinner at the Staglin Family Vineyard the evening of September 11, 2019.

**One Mind at Work** is committed to establishing the business case for executive-level leadership on workplace mental health. We are exploring best practices, improving support and reducing stigma through corporate culture, access and training. Through our work, we are leading a decrease in the impact of brain health challenges on employees through evidenced-based interventions.

Please contact Katy Schneider Riddick at [katy.riddick@onemind.org](mailto:katy.riddick@onemind.org) for more information about attending the forum or participating as a sponsor.

### ***Please join us!***

#### **Forum:**

Starts 9:00am PDT Wed.,  
Sept. 11
